===== RESTART: C:/Python314/8.2.py =====
Find the factorial of a given number
Enter the number: 6
Factorial of 6 is 720
-----

Reverse a string without using any built-in functions
Enter the word: vijay
Reversed string: yajiv
-----

Check if a given string is a palindrome
Enter a string: akka
akka is a palindrome
-----

Remove all duplicate elements from a list
Enter the string: vijay iniya vijay muthu vijay kowthik
Duplicates are removed: ['vijay', 'iniya', 'muthu', 'kowthik']
-----
>>>
```
