Find the sum of all elements in a list
Sum of all elements : 396
Enter the value: 58 75 86 46 35
Sum of all elements : 300

List of integers, find and print the maximum element
Maximum element in the list : 95
Enter the value: 46 75 869 759 697
Maximum element in the list : 869

Minimum element in a list of floating-point numbers
Minimum element in the list : 57.7
Enter the value: 58.57 56.4 96.66 5.55
minimum element in the list: <built-in function min>
